

Education

The complete Communication
and Collaboration solution,
designed by teachers, for teachers.

Why Clevertouch?

For over a decade, we have been supporting teachers with technology that helps them to teach. Our range of products includes classroom interactive displays, commercial displays, LED walls, room booking panels and digital signage. Our range of products can be connected simply and securely by our CleverLive and MDM remote content and management systems. The Clevertouch ecosystem supports meaningful experiences for both learning and teaching.

Trusted by over 1 million teachers and rated as the number one edtech solution in its category by independent consultants, Clevertouch has over a decade of innovation with locally based pre-and-post sales support, in-person or remote training, a robust warranty, and no ongoing costs or subscriptions. Once you install a product, we commit to offering you free firmware updates whilst applicable, and have a group of edtech experts on hand, to not only guide you through the installation process but to be available for whatever questions may crop up.

About Clevertouch

Established in 2009, Clevertouch began with interactive flat panels and soon expanded into a wider range of technology solutions.

Clevertouch is the only manufacturer to deliver industry-leading full-service, products and software solutions. Delivering a multi-awarding winning range of interactive collaborative meeting room panels, interactive collaboration teaching panels, digital signage, room booking, large format commercial displays, and wayfinding screens, Clevertouch offers a solution for every sector.

Clevertouch has partnered with the world's largest processor manufacturer and achieved Intel Gold Partner Status. This alliance is set to benefit our partners and customers with an even greater range of Intel-based products, and innovation to meet the needs of a new technology driven society in the post covid world.

Our Values

With our partners, our technology and our customers are at our core and we live these values:

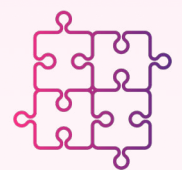

- To empower every human being and organisation on the planet to achieve more.
- Encourage everyone to come together to explore and expand on ideas, bringing them to life without geographical or technological limitations.
- Delivering our very best in all we do.
- Being present, connecting with transparency, dignity and respect.

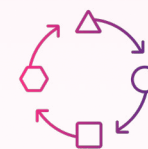

We are proud to be Number One
in multiple countries!

We have pledged to become
Net Zero by 2045!

We really do care about
diversity and inclusivity

We are dedicated to working with
companies who share our values. That
is why we have partnered with industry
leaders with collaboration at their core.

We use numerous channels to
support your training requirements from
online videos, guides, ZenDesk AI, and
person-to-person.

Multi award-winning - our passion and
drive for innovative technology is at the
heart of our business

The next generation in collaboration

Our range of Education Solutions are suitable for many applications within the school, including Classroom, Teacher Meeting Rooms, and School Canteens. Find the perfect all-in- one solution for learning and sharing ideas.

Reception

Welcome visitors to your school through personalised welcome messages, showcase videos, digital sign-in, wayfinding, and school advertising. Keep staff and students motivated with recognition of achievement messages, school timetables, safety instructions or alerts, and more.

Hallways & Corridors

Forget bulk emails that don't get read or the piles of internal memos that get distributed and disregarded, education digital signage is a more effective way to communicate internally. Update staff on policy, meetings, and important information with internal message boards that can be displayed in all staff offices and meeting rooms - perfect for keeping staff updated.

Classrooms

Support modern learning and teaching, and equip teaching spaces with technology that empowers educators to engage students and maximise their learning experience.

School Canteen

Modernise your school canteen with digital menu boards to promote the daily menu, advertise break time activities or announce forthcoming events, all within a space that students will take notice.

Teacher Meeting Rooms/Staff Rooms

The perfect meeting room experience provides a hub for collaborative group work, both for those in the office and those virtually. The well-designed meeting room should be adaptable for your teachers, accommodating the use of personal devices and walk-in-and-use technology and include, large presentation screens for connecting remotely.

School Hall

A well-designed school hall is a space that is simple for teachers to present with technology that is easy to use and offers the best experience for students. Our technology allows students to collaborate effectively and share ideas.

Case Studies

90-screen Clevertouch project proves a very clever move at Leeds Comprehensive, "Clevertouch was simply the best performing system, with great visibility in any light conditions and no time lag in operation. Because we've made sustainability a theme here at the school, the product's central management system was a big thing too. Where traditional projectors were using up energy even on stand-by, we can make sure all the Clevertouch products are switched off at 4pm, saving us money and reducing our environmental impact."

- Jack Garratt, Head of IT, Benton Park School

[Learn More](#)

Bryan School District Upgrades to Plus

"Teachers want to use this technology. It enhances what they are doing, they know it grabs students' attention and makes their lessons more engaging. Kids want to be in their classroom. Our teachers have standards to follow and they get where they want to be using their classroom technology."

- Tom Karnes, Bryan City School District's Director of Technology

[Learn More](#)

Clevertouch equips Aberdeenshire schools with the latest AV technology

"We see technology as something that should be across all learning, not something that's timetabled or that you have to go somewhere else to do. "We were interested in the Cleverstore feature of Clevertouch screens. It provides an area where you can download approved apps that are ad-free and totally free."

- Graeme Slapp, Technology Development Manager at Aberdeenshire Council

[Learn More](#)

The International School Rheintal (ISR)

"Teachers are more inspired, students are more engaged, and the Clevertouch display has become a hub of creativity and collaboration, empowering our school to reach new heights."

- Gus Alcala, the IT Manager and Education Technology Lead at ISR

[Learn More](#)

Thomas Acres Public School boosts student engagement with interactive panels

"The panels have been a great success at our school, with teachers and students alike praising the technology for its ease of use and the variety of resources it has to offer."

- Thomas Acres Public School, Ambarvale, NSW, Australia

Luxury In Every Touch, Power In Every Feature.

The first Google-EDLA-certified Interactive display, IMPACT Lux 2 blends a premium design with exceptional performance.

High Precision Technology

Our Super Glide Touch technology offers the most fluid writing experience on a touchscreen. It's as smooth as writing on a whiteboard – with no lag. With the ability to differentiate between palm-erase, fingertouch, and stylus-writing, there's no need to change settings mid-flow.

EDLA Certification

Access the Google Play Store and Google Workplace, along with the full Microsoft 365 suite, directly from the screen. Use apps such as Google Drive, Docs, Sheets, Slides, Teams, Word and PowerPoint.

Any Screen, Any Time

With integrated NFC, users can simply swipe their fob, card or device to load their personal profile and settings, on any Clevertouch, in any classroom or school.

Create your free account
at CleverLive.com

CLEVERSHARE®

Any device can download the Clevershare app and connect instantly by typing in the code on the Clevertouch screen. Clevershare App is free to download and compatible with Android, Windows, iOS, and Chrome devices.

How to connect

You can connect via the Clevershare App if your device is on the same Network as the Clevertouch. There is a Hotspot option if you are unable to use the network.

[Learn More >](#)

CLEVERMDM®

Total control of your organisation in just one click. IT staff no longer have to be physically present to overcome technical issues with our MDM end-point management solution. Furthermore, our system allows for remote analysis, updates, and central management across the entire organisation's interactive touchscreen fleet. The solution is cloud-based and requires only Wi-Fi for the effortless management of thousands of touch panels and devices.

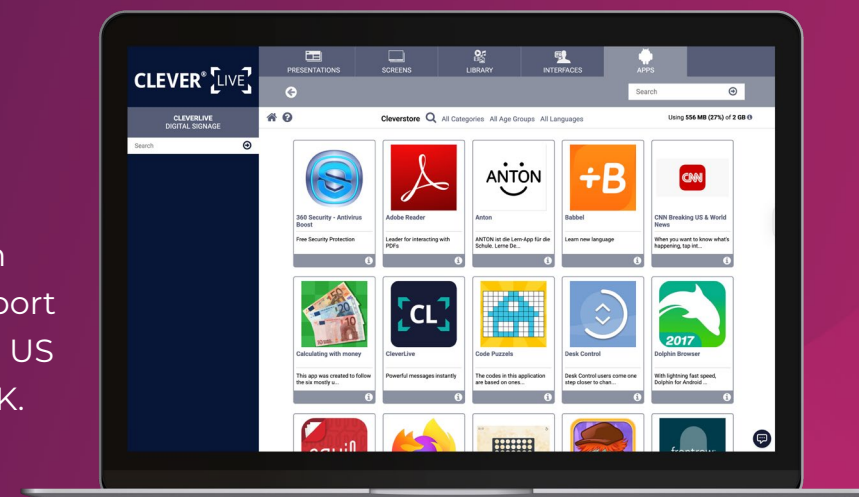

[Learn More >](#)

CLEVERLIVESTORE®

It's easy to hold students' attention when there's something new on the screen. We've hand-picked apps from educational app developers that support Common Core State Standards in the US and the National Curriculum in the UK.

Included with
interactive displays

Designed for interactive displays, LYNX Whiteboard is a free-to-use lesson building app, enabling student collaboration. The most dynamic, intuitive user experience of any whiteboard – with drag and drop, pinch to zoom, and easy swipe menus.

Quickly switch formats

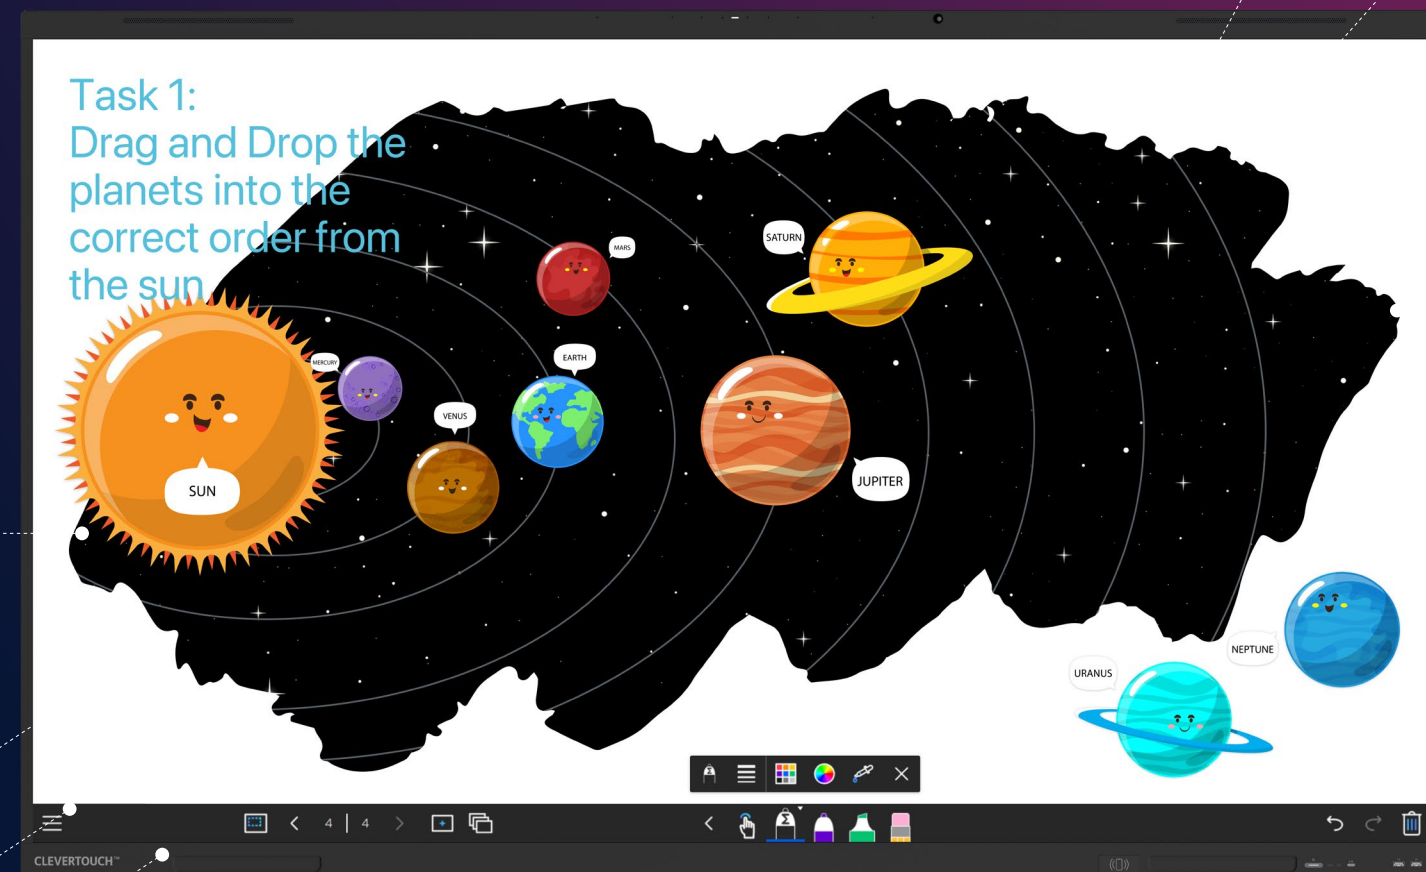

Convert files from Office formats into LYNX files, ready to be used within LYNX. Word, Excel and PDF files can easily be converted. Drag interactive whiteboard or Smart Notebook files and they will automatically convert into a LYNX file.

LYNX Cloud File Conversion PRO

Extra Storage PRO

AI Features PRO

With AI you can generate and upscale images, generate quizzes and more.

Natural handwriting

Our new pen type allows users to have a more natural feel to their writing. Pressure and velocity will help to decide the thickness of the line as the user writes – like a real pen.

Differential Recognition

LYNX knows the difference between pen, palm and finger manipulation, so you can write with a stylus, whilst moving objects or palm-erasing with your hands/fingers.

Dual Pen

Two users can choose different pens, or different tools, and use them simultaneously, providing a more natural feel.

Increase Student Engagement

Search videos from YouTube, images from Unsplash, panoramic images – all without leaving your app. Safe Search enabled, ensuring content is suitable for children.

Collaborate with ease

Students can scan a QR code with their personal device and either join the activity during the lesson, or save it to do at home.

Fun, Shareable Activities

Create your own activities with customisable content. Activities will automatically be saved to your LYNX Cloud, so that you can share them with colleagues.

LYNX Whiteboard has now partnered with PhET to give you over 80 FREE STEM activities to use in your classroom or set as homework.

Upgrade to Lynx Pro for premium features

Lynx Pro from as little as £0.57 per week

Access to all of our standard features is free. No credit card is required.

Our premium features are available from as little as £1 per week

Organisation

Multiple users can access premium features through an Organisation Account

Cloud access for distant learning

Hundreds of tools to increase student engagement in a blended learning environment. Create lessons on the go, at home, or in another classroom, on any device. Your school can set up a LYNX Cloud account, so content and resources can be shared. You can set work, deploy, give students their own log-ins and set homework activities for your students. LYNX cloud can also sync with other cloud based drives such as Dropbox, OneDrive, SharePoint, LYNX Cloud or Google Drive - allowing you to input it directly into your lessons.

CleverCam

CleverCam is a 4K ultra-high definition ePTZ camera with a sleek, eye-catching design. CleverCam employs advanced ISP processing algorithms to provide vivid, vibrant images with uniform clarity, brightness, strong colour layering, high resolutions and fantastic colour rendition. With it's great functionality and superior performance, CleverCam is easy and convenient to install and maintain.

CleverHub 2

NEW

[Download the Specification >](#)

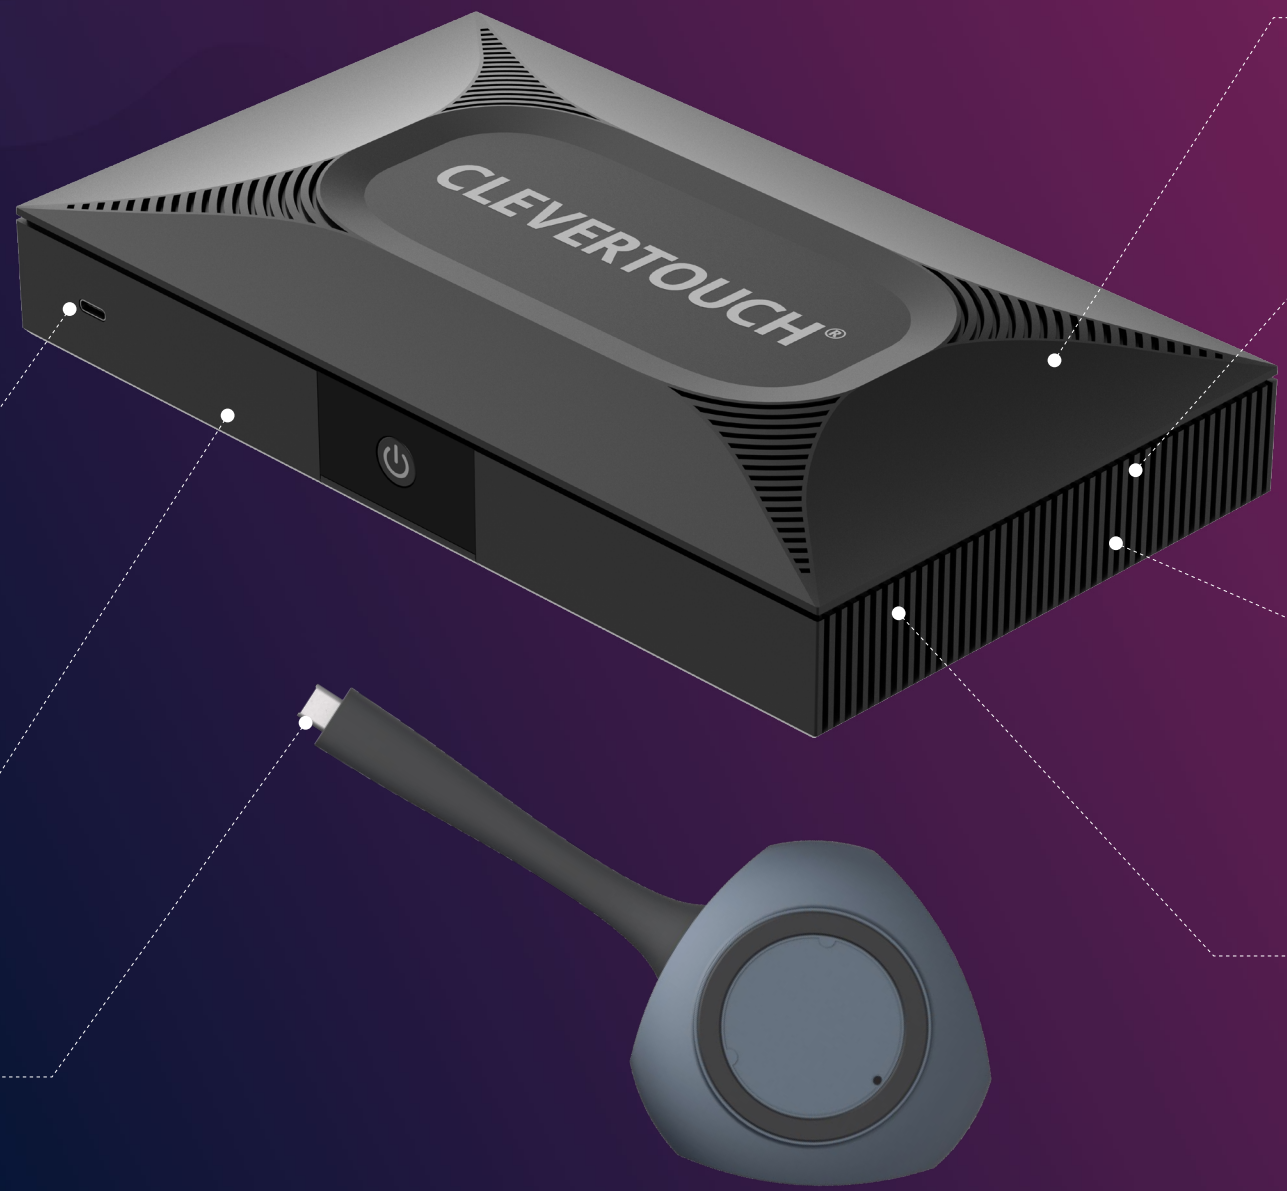

[Learn More >](#)

CleverHub 2 is the most versatile and innovative wireless sharing technology for real-time screen sharing. Instantly displays presentations, documents, and media directly from your device, ensuring seamless connectivity and efficient collaboration in any environment.

Works seamlessly with any visual display
From TVs to projectors and Commercial Displays, users aren't restricted by hardware, ensuring effortless integration into any environment.

Share up to 9 Devices
Collaboration to the next level. Everyone's ideas can be displayed and considered in real-time, perfect for group discussions, brainstorming sessions, or gathering feedback.

1x CleverCast device included
No additional software install is needed.

- Complete Flexibility**
Have the flexibility to choose which device you'd like to present and collaborate from, making meetings more adaptable than ever. Choose to share directly from your laptop, tablet or smartphone.
- Switch with Ease**
Users can seamlessly transition from presenting on a laptop to sharing content from a tablet or smartphone, ensuring multiple participants can contribute without interruptions. This intuitive functionality enables dynamic teamwork and enhances collaboration, whether in a meeting, classroom, or group setting.
- Triple the Screens, Triple the Impact**
CleverHub 2's dual HDMI and USB-C ports allow users to simultaneously present across up to three screens. Display content across multiple screens to ensure visibility or extend your presentation across multiple displays to share additional content on a secondary or third screen.
- Collaborate with ease**
With the Bluetooth remote, you can control your presentations from anywhere in the room. Power on your device, adjust the volume, effortlessly switch between extended or duplicate displays, zoom in or out, switch to air mouse mode for intuitive navigation, and more.

Key Features
