Your sensitive information is safe with Clevertouch

With a strong commitment to safeguarding sensitive information, Clevertouch employs advanced encryption protocols and robust security measures across its entire product range. This includes secure user authentication, data encryption in transit and at rest, and regular security updates to thwart potential vulnerabilities. Whether in the classroom, boardroom, collaborative workspace, or information broadcasting locations, Clevertouch provides peace of mind by delivering innovative solutions in a secure environment where your data remains confidential and protected.

We have an extensive Privacy Policy, which compliments our security policy.

Clevertouch the Manufacturer

As the leading manufacturer of interactive and digital signage technologies, we have a presence in over 25+ countries, and we'd like to show you how we are handling your data worldwide.

Privacy in Development

At Clevertouch, your privacy takes top priority. We develop our innovative software solutions under Clevertouch's direct management, eliminating reliance on third parties. This approach allows us to maintain strict control over data privacy throughout the entire product development process.

Global Regulations

Clevertouch takes privacy and security seriously, enlisting independent privacy and security advisors. Their expertise ensures we remain fully compliant with localised GDPR across our entire global reach. We are dedicated to safeguarding user data and upholding the highest standards in data privacy and security across our operations.

White Hat Hackers

White Hat Hackers play a crucial role in our security strategy, conducting thorough assessments of our hardware and software. Their efforts are instrumental in helping us fortify our defences, ensuring that we protect our systems and data to the best of our ability. By identifying vulnerabilities and potential weaknesses, these experts enable us to address any security risks and continually strengthen our safeguards proactively. Their work is an essential part of our commitment to providing a secure and reliable environment for our users and stakeholders.

CPD Certified

Our team is CPD certified in data protection, privacy and bribery. It is part of our onboarding process for new team members, and we regularly do updates when legislation changes.

Your data is safe with us

Your data is safe with us. For final peace of mind, we do not, and will not, sell any of the data that we hold about you for commercial use.

Our Certifications

When you buy from Clevertouch, you can rest easy. Our commitment to security and privacy in both our solutions and internal practices has seen us awarded multiple certifications.

We operate transparently and have ISO 9001 and ISO 14001.

Our products comply with CE, UKCA and RoHS

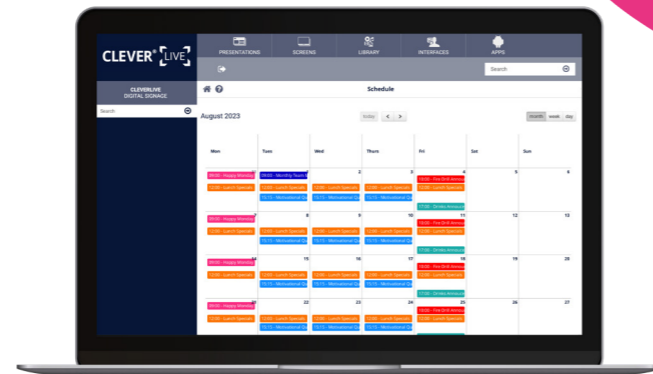

Our servers are hosted by world-leading providers who operate high-performance data centres globally and hold ISO 27001.

Your solution is secure straight out of the box

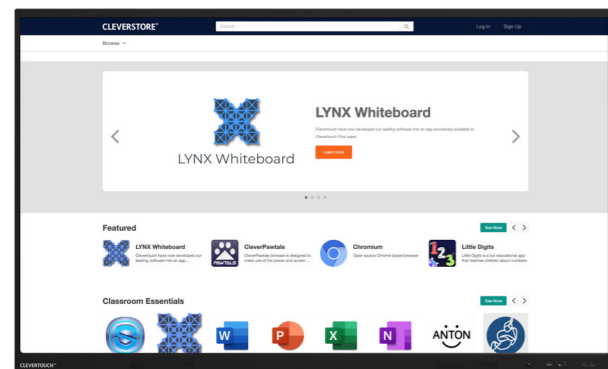

Take control – from anywhere

Link your entire Clevertouch fleet to your Remote Management MDM account and/or CleverLive Digital Signage so that you can control them from anywhere. IT Managers can troubleshoot without needing to leave their office.

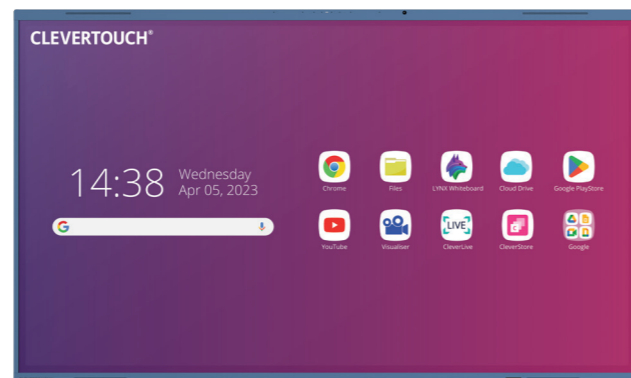

Over-the-air updates

Our interactive displays benefit from over-the-air updates for new features, performance and security. Digital signage devices benefit from a combination of over-the-air and manual processing for deploying new features and functionality.

Managed by Clevertouch

Software and apps managed by Clevertouch are completely safe and secure when used on your interactive display. Our robust protective measures ensure a worry-free experience, allowing you to explore and engage with content confidently while safeguarding your data and privacy.

Safe Search

Our online search feature is set to safe search by default, ensuring your peace of mind by filtering results to display only appropriate content, free from ads

Advanced protection with EDLA

EDLA ensures advanced protection for personal and sensitive information to prevent cyberattacks, data loss, and unauthorised access. Our user-friendly security features are up-to-date and allow for remote wiping or locking in case of a lost or stolen device.

Advanced protection with CleverLive

You can have the peace of mind that your data and communications are safe, allowing you to focus on delivering impactful and compelling messages to your audience without worrying about security breaches.
