CLEVERTOUCH® Innovation for your
by Boxlight® world

Further & Higher Education

The complete Communication and Collaboration solution for a better-connected learning environment in Further & Higher Education

#clevertouch | info@clevertouch.com

Why Clevertouch?

From lecture theatres and seminar rooms to collaborative teaching spaces, the Clevertouch ecosystem creates dynamic interactive workspaces for greater student collaboration and communication. Consistently awarded education accolades and rated as the number one edtech solution in its category by independent consultants, Clevertouch has over a decade of innovation, with UK-based support, pre-and-post sales, face-to-face training, a robust warranty, and no ongoing costs or subscriptions.

The Clevertouch range of products helps deliver immersive and collaborative experiences. Digital, interactive teachings spaces are the lecture theatres of the future, and Clevertouch is proud to be at the forefront of this movement. Designed for hybrid learning, our solutions are dynamic and creative, giving students access to top quality learning environments - in person or remotely.

About Clevertouch

Established in 2009, Clevertouch began with interactive flat panels and soon expanded into a wider range of technology solutions.

Clevertouch is the only manufacturer to deliver industry-leading full-service, products and software solutions. Delivering a multi-awarding winning range of interactive collaborative meeting room panels, interactive collaboration teaching panels, digital signage, room booking, large format commercial displays, and wayfinding screens, Clevertouch offers a solution for every sector.

Clevertouch has partnered with the world's largest processor manufacturer and achieved Intel Gold Partner Status. This alliance is set to benefit our partners and customers with an even greater range of Intel-based products, and innovation to meet the needs of a new technology driven society in the post covid world.
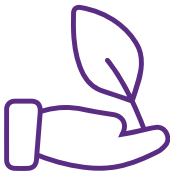

Our Values

With our partners, our technology and our customers are at our core and we live these values:

- To empower every human being and organisation on the planet to achieve more.
- Encourage everyone to come together to explore and expand on ideas, bringing them to life without geographical or technological limitations.
- Delivering our very best in all we do.
- Being present, connecting with transparency, dignity and respect.

80 COUNTRIES

15 YEARS OF INNOVATION

50% OF UNIVERSITIES USE CLEVERTOUCH
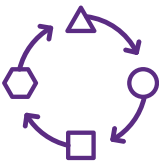

22 NUMBER ONE IN 22 COUNTRIES

We are proud to be Number One in a number of countries!

We have pledged to become carbon neutral by 2025!

We really do care about diversity and inclusivity

We're dedicated to working with companies who share our values. That's why we've partnered with industry leaders with collaboration at their core

We offer a range of courses that have been carefully curated to give you the knowledge you need to excel

Multi award-winning - our passion and drive for innovative technology is at the heart of our business

Case Studies

Cardiff Metropolitan University invested in Clevertouch IMPACT Plus displays to support modern learning and to engage students.

"We wanted to provide high resolution displays that are visible by all potential users of a space, ensuring they remain accessible and provide a level of interactivity,"

- Hollie Carter, IT Advisor (AV Liason)

Making Learning Accessible from Anywhere at NA College

"Whether delivering an advanced Maths session to Engineering learners, or an Operational Management session to our Management learners, Clevertouch equipped us with the technology to be able to make the sessions an immersive and intuitive digital experience without detracting from the valuable content being delivered"

- Lisa Emmerson, Digital Learning and Innovation Manager at NA College

Interactive Displays Enhance Collaborative Spaces at Leeds University Business School

"We have built an innovative flagship building fit for the future. The technology installed is flexible enough to adapt to our future needs. We are a Business School, so we need to be at the forefront of teaching and research. This building was designed a few years ago and we needed to make sure the technology would still be relevant by the time it was built."

- Tamsin Barrows, Facilities Manager Leeds University Business School

Our Team

Head of Customer Success

The next generation in collaboration

Our range of Further/Higher Education Solutions are suitable for many applications on campus, including Teaching Areas, Student Collaboration Spaces, and Lecture Theatres. Find the perfect all-in-one solution for learning and sharing ideas.

Reception

Welcome those attending your College or University with personalised welcome messages, showcase videos, digital sign-in, wayfinding, and more. Keep students motivated with recognition of achievement messages, alert students and staff instantly with safety instructions, and showcase changes to the school day easily.

Hallways

Forget bulk emails that don't get read or printed dog-eared notices on pinboards, education digital signage is a more effective way to communicate internally. From updating students and staff on the latest timetables to last-minute changes to the day, the Clevertouch FEHE digital signage systems are ideally suited to keeping staff up to date.

Teaching Areas

Support modern learning and teaching, and equip teaching spaces with technology that empowers educators to engage students and maximize their learning experience.

Meeting Rooms

The perfect Meeting Room experience provides a hub for collaborative group work for those on campus and those virtually. These well-designed rooms should be adaptable for your students, accommodating the use of personal devices and touchscreens.

Student Collaboration Spaces

Bring students together in a technologically enabled space to encourage exploration, collaboration and discussion. A flexible space that is adaptable for group and individual active learning.

Lecture Theatres

A well-designed Lecture theatre is a space that is simple for the presenter to use and offers the best experience for students. Our technology allows students to collaborate effectively and share ideas.

LUX for Enterprise
Sizes: 65" | 75" | 86"

Get full specs here

Lux for Enterprise is our premium interactive display designed for collaborative learning environments.

Interactive teaching allows the educators of today to deliver so much more than knowledge; it enables students to hear, see, and experience content, truly understanding what is being taught. A Clevertouch interactive touchscreen system is not restricted to the lecture hall or a teaching space but is a dynamic and flexible system accessible from anywhere.

With built-in screen-sharing capabilities for up to 9 devices, via either AirServer or CleverShare, students can easily collaborate on projects, annotating documents in unison and saving notes to take home or access later.
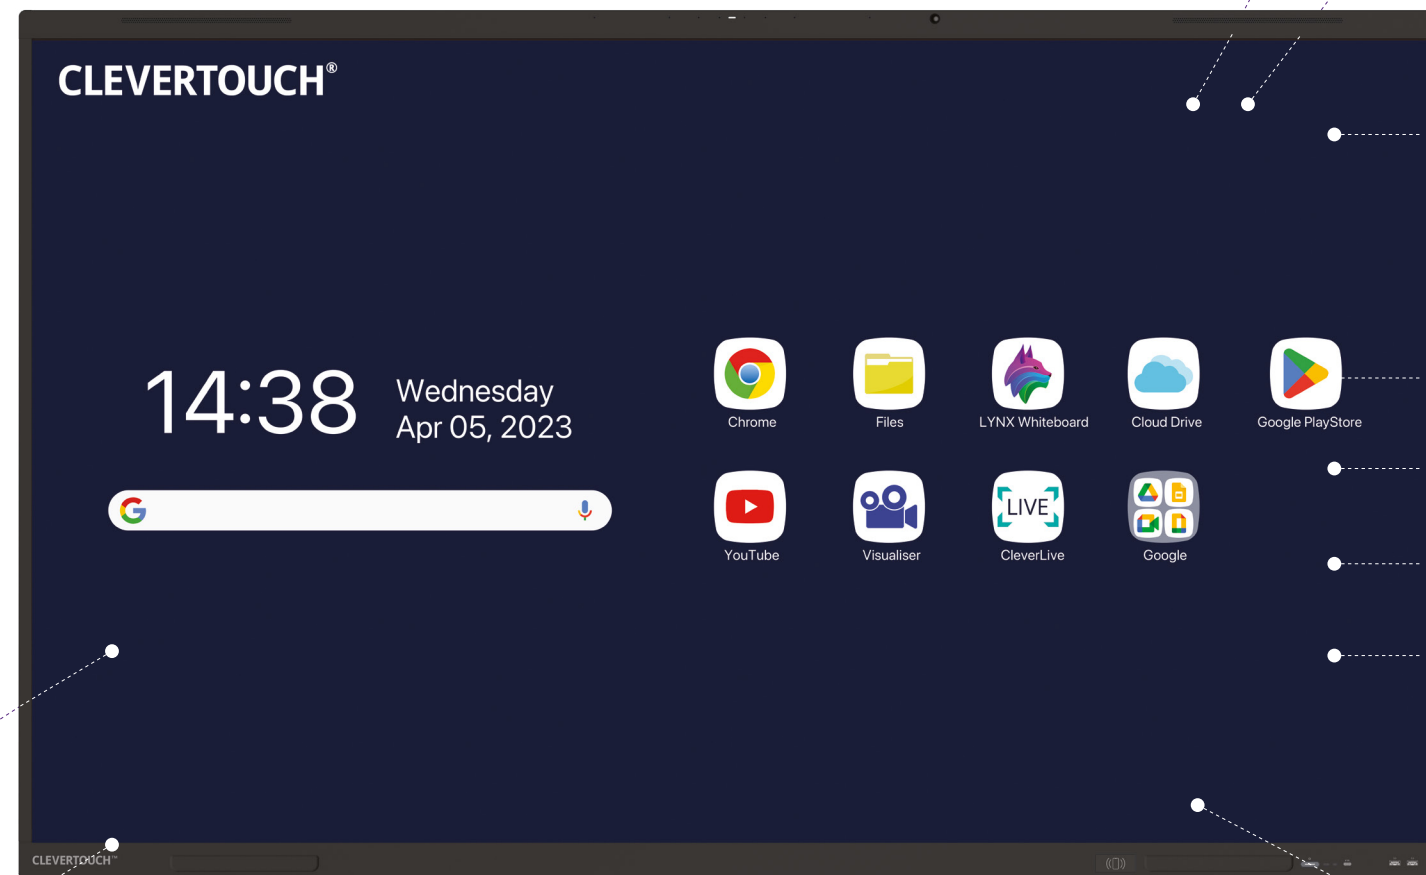

With a variety of apps available from the Cleverstore, and the ability to add any software via the Intel OPS Windows 10 PC, there are no limitations to the resources available.

USB Camera
Works with any USB camera or add our own camera, Clevercam.

Android/PC
Switch between Android and PC mode, or switch off the Android capabilities and just use the PC.

CLEVER® LIVE

CleverLive manages content deployment to all your Clevertouch products. This digital signage software platform enables the creation, editing and management of content broadcast across one or multiple Clevertouch displays. It can be used with any internet-based device, such as a laptop, tablet, or mobile phone due to its cloud management functionality.

Included with interactive displays

Get full specs here

Create your free account at CleverLive.com

CLEVER MDM®

Total control of your organisation in just one click. IT staff no longer have to be physically present to overcome technical issues with our MDM end-point management solution. Furthermore, our system allows for remote analysis, updates, and central management across the entire organisation's interactive touchscreen fleet. The solution is cloud-based and requires only Wi-Fi for the effortless management of thousands of touch panels and devices.
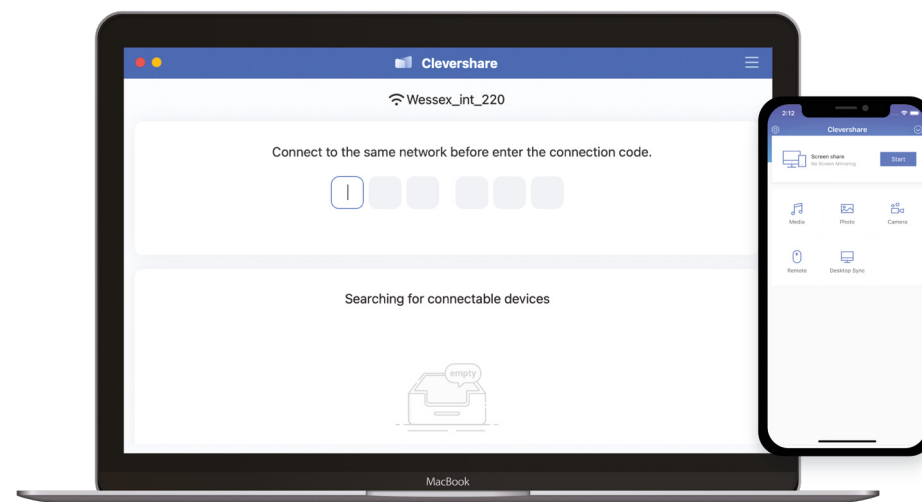

Learn more

CLEVER SHARE®

Any device can download the Clevershare app and connect instantly by typing in the code on the Clevertouch screen. Clevershare App is free to download and compatible with Android, Windows, iOS, and Chrome devices.
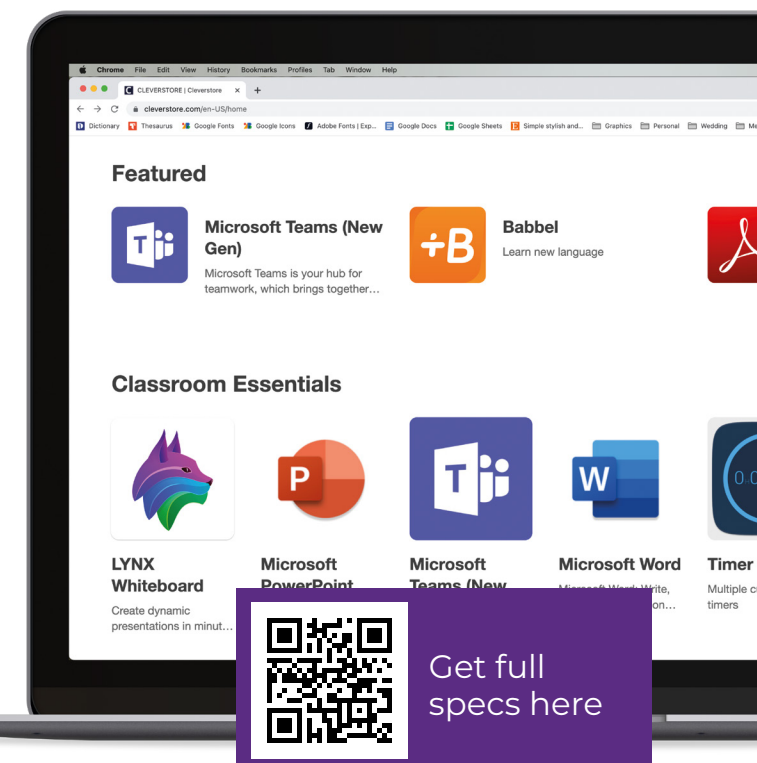

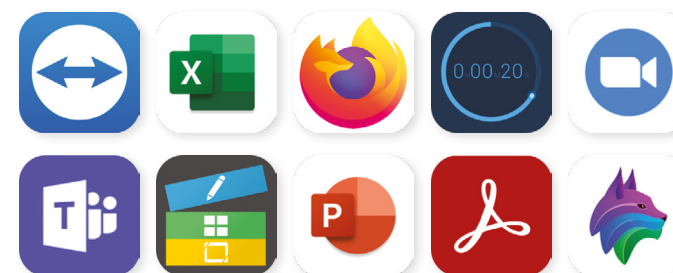

How to connect

You can connect via the Clevershare App if your device is on the same Network as the Clevertouch. Use Advanced Mode for additional encryption and dual sub-networks. There is a Hotspot option if you are unable to use the network.

CleverSoftware

LYNX whiteboard

Designed for interactive displays, LYNX Whiteboard is a free-to-use lesson building app, enabling student collaboration.
The most dynamic, intuitive user experience of any whiteboard – with drag and drop, pinch to zoom, and easy swipe menus.

Included with interactive displays

Quickly switch formats
Convert files from Office formats into LYNX files, ready to be used within LYNX. Word, Excel and PDF files can easily be converted. Drag interactive whiteboard or Smart Notebook files and they will automatically convert into a LYNX file.
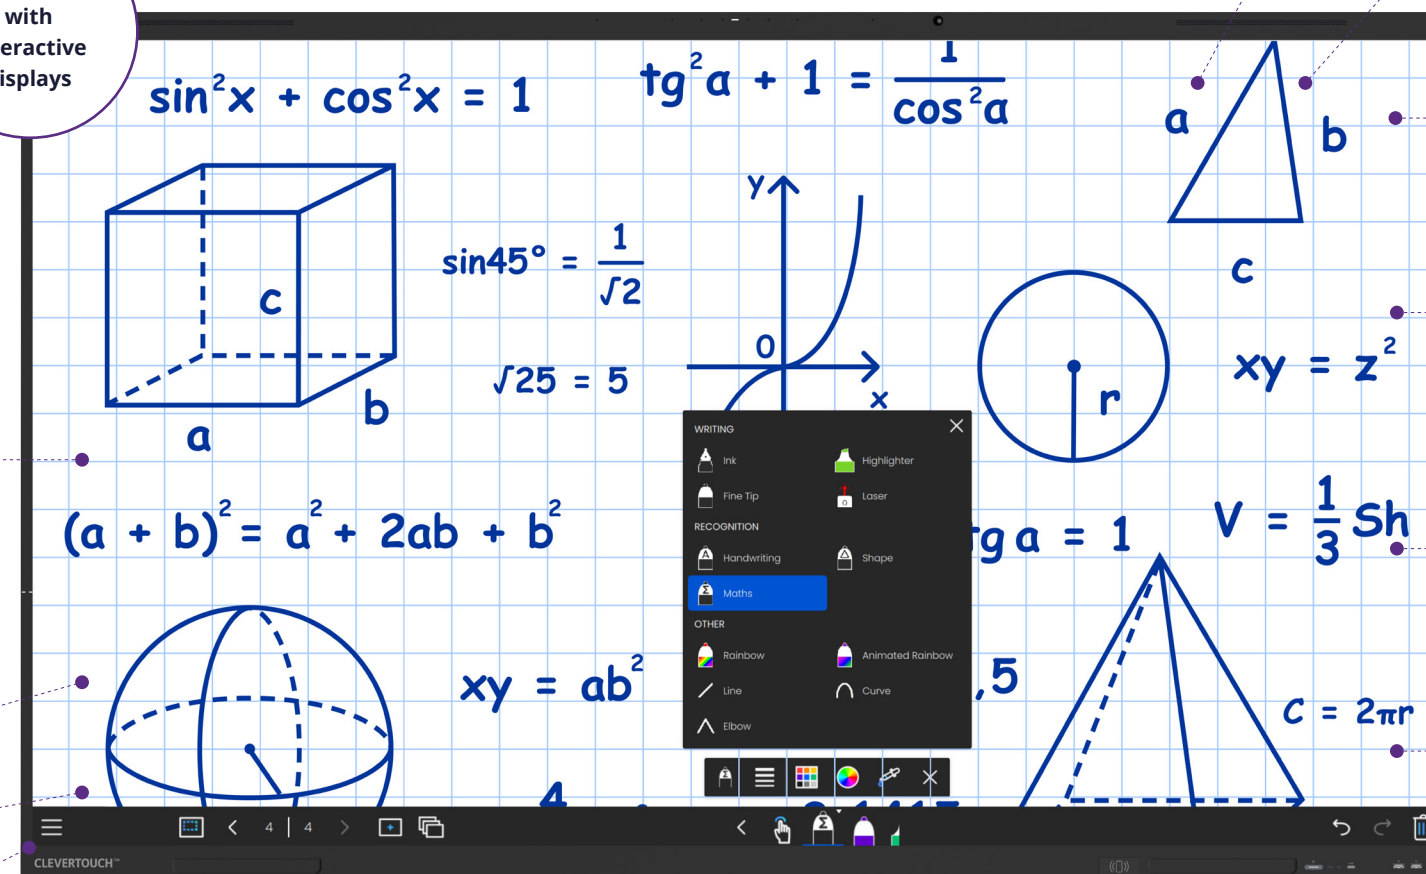

LYNX Cloud File Conversion **PRO**

Extra Storage **PRO**

AI Features **PRO**
With AI you can generate and upscale images, generate quizzes and more.

Natural handwriting
Our new pen type allows users to have a more natural feel to their writing. Pressure and velocity will help to decide the thickness of the line as the user writes – like a real pen.

Differential Recognition
LYNX knows the difference between pen, palm and finger manipulation, so you can write with a stylus, whilst moving objects or palm-erasing with your hands/fingers.

Dual Pen
Two users can choose different pens, or different tools, and use them simultaneously, providing a more natural feel.

Increase Student Engagement
Search videos from YouTube, images from Unsplash, panoramic images – all without leaving your app. Safe Search enabled, ensuring content is suitable for children.

Collaborate with ease
Students can scan a QR code with their personal device and either join the activity during the lesson, or save it to do at home.

Fun, Shareable Activities
Create your own activities with customizable content. Activities will automatically be saved to your LYNX Cloud, so that you can share them with colleagues.

LYNX Whiteboard has now partnered with PhET to give you over 80 FREE STEM activities to use in your classroom or set as homework.

Upgrade to Lynx Pro for premium features

Lynx Pro from US$30.00 Per User

LYNX whiteboard
Access to all of our standard features is free. No credit card is required.

PRO
Our premium features are available from as little as £1 per week

Organisation
Multiple users can access premium features through an Organisation Account

Cloud access for distant learning

Hundreds of tools to increase student engagement in a blended learning environment. Create lessons on the go, at home, or in another classroom, on any device. Your school can set up a LYNX Cloud account, so content and resources can be shared. You can set work, deploy, give students their own log-ins and set homework activities for your students. LYNX cloud can also sync with other cloud based drives such as Dropbox, OneDrive, SharePoint, LYNX Cloud or Google Drive - allowing you to input it directly into your lessons.

CleverSoftware

DisplayNote `Launcher`

Get full specs here

Remote meetings and connecting participants from around the world is the new norm. Launcher powered by Clevertouch and Logitech is the number one unified comms platform for all collaborative meetings. Use your existing UC provider and standardise your meeting rooms with Launcher, Clevertouch and Logitech.

One-touch video calls
Launcher's smart room calendar picks up your video calls and meetings, saving precious time, all you need to do is tap a button to start or join your calls.

Integrates with MS Exchange
Launcher integrates with MS exchange and supports Zoom, Teams, Skype for Business, GoToMeeting, Google Meet, Lifesize and Webex.

Supports the most popular UC tools
Launcher's focus is straightforward: making it easy for meeting room users to find and launch the apps they need. That's why Launcher works with some of the world's most popular collaboration and productivity tools.

Standardization
Launcher's organized and intuitive interface lets you standardize the tools you use across all of your rooms so that your users can easily find and launch the apps they need.

Easy to use
Supports any Windows program, Store App or Web URL.

Mobile App
Launcher's mobile app allows users to wirelessly sign-in and out of 365 on the meeting room screen.

Secure in one tap
All settings are PIN protected, and one tap clears your footprint, closing apps and clearing any browsing history.

Larger lecture theatres and auditoriums are the number one application for LED walls in universities and colleges. They are replacing projector/screen combinations, as the picture quality is sharper, the connectivity is better, and there are more options for student collaboration and participation.

There is also the potential for LED walls to be used in Reception Areas, Student Union spaces, Esports arenas, and immersive rooms, in a number of configurations.

Featuring All-in-one Design

- Integrated design with no external devices.
- Built-in Android System.
- Revolutionary 3-in-1 board that integrates a power supply, a receiving card and a hub board.
- Unified hardware and software technical support and service.
- The all in one CleverWall is a perfect solution and fit for any place and any size

Delivery Simplicity and Efficiency

- Ease of use of the monitor functions with the remote control.
- Plug and play system, one button to turn on/off.
- Smart remote control to access settings.

Immersive meeting experiences

- Inbuilt audio system.
- Ultra-wide screen, presenting a exceptional AV experience.
