Retail & Hospitality

The complete Communication and Collaboration solution for an always connected front of house and office

Why Clevertouch?

Clevertouch delivers a product range that seamlessly integrates the communication and collaboration requirements for the retail and hospitality sectors. Our cutting-edge technology is a complete solution, a digital ecosystem which can be deployed front of house in stores, hotels and QSR to engage with your audience, as well as back of house in the warehouse, kitchen, staff room and even head office.

The product range includes interactive displays and room booking panels for enhanced meeting, training and collaboration engagement, and commercial displays, LED walls, free-standing totems for communicating welcome messages, product advertising, menu's, instant promotions and wayfinding to create an interactive experience for customers.

Our range of products can be connected simply and securely by through CleverLive our intuitive digital signage platform and our MDM remote management system.

At Clevertouch, we believe technology works best with a truly unified communications platform that is free from frustrations of incompatibility. Our Clevertouch products allow users to communicate and collaborate simply, easily, and quickly.

About Clevertouch

Established in 2009, Clevertouch began with interactive flat panels and soon expanded into a wider range of technology solutions.

Clevertouch is the only manufacturer to deliver industry-leading full-service, products and software solutions. Delivering a multi-awarding winning range of interactive collaborative meeting room panels, interactive collaboration teaching panels, digital signage, room booking, large format commercial displays, and wayfinding screens, Clevertouch offers a solution for every sector.

Clevertouch has partnered with the world's largest processor manufacturer and achieved Intel Gold Partner Status. This alliance is set to benefit our partners and customers with an even greater range of Intel-based products, and innovation to meet the needs of a new technology driven society in the post covid world.
